

Stainless Steel Shower Channels

Josam Company's stainless steel shower channels for institutional and residential showers offer a low profile drain solution with a stylish appearance. The linear design allows level entry to the shower area for wheel chair access. The channel can also be located against a wall for a clean out-of-the-way drain solution. Custom solutions are available to meet most design requirements.

Josam Company's standard range of shower channels includes:

- 2" no-hub outlets for easy connection to existing piping
- 6 standard grate designs
- Leveling feet for ease of height adjustment
- Concrete anchor tabs

3.5" SHOWER CHANNEL, NO-HUB OUTLET
