JOSAM

Eliminate sewer gases, insects, and unpleasant odors from entering through the drain.

Trap Guard Insert (TGI) - Floor Drain Trap Seal

Josam's TGI is the perfect solution for solving issues with trap primer fails, sewer gases, bugs, and unpleasant odors entering the building through the drain.

With TGI, water flows down, bugs, odors, and sewer gases stay out! TGI prevents the spread of dangerous bacteria that can cause potential health hazards, eliminates the need to frequently pour primer and fresh water down the drain, and saves time, water, costs, and energy.

Tested and approved

Product Features
