

# HAVE YOU CONSIDERED YOUR FACILITY'S DRAINAGE NEEDS?

## If Not, You May Be Missing An Important Step In Crafting A Good Brew.

While choosing the right ingredients for your brew, fermentation, bottling, and storage are all essential steps in crafting a good brew, the design of a trench drain system that can withstand high temperatures in your facility also plays a crucial role in the process.

**Let JOSAM help you choose a budget friendly, high quality trench drain system that is suitable for all your facility's drainage requirements.**

Stainless Steel  
Trench Drain System

SMC/GRP  
Trench Drains

Ensure that you have selected a product that can withstand your facility's temperature requirements.
