

**MEA JOSAM**

# THE NEXT GENERATION OF TRENCH DRAINS

**STARFIX Grate  
Securing System**

## **MEA-JOSAM Pro-Plus**

Manufactured from glass reinforced polyester (GRP) pressed from sheet molding compound (SMC), the Mea-Josam Pro-Plus trench drains provide a trench drain system that is 1.5 times stronger, yet 70% lighter, than polymer concrete. In addition to strength and reduced weight, key advantages of the SMC/GRP process include shatterproof, non-porous, chemical resistance, nonflammable, superior compressive, flexural and tensile strength and reduced thermal expansion. The Pro-Plus series is available with and without slope, in 4", 8" and 12" nominal widths and with a variety of gratings including the STARFIX "bolt free" grate securing system.

For full details on the Mea-Josam Pro-Plus trench drain system contact your local representative or visit [www.JOSAM.com](http://www.JOSAM.com).
