

HEAR WHAT OTHERS ARE SAYING ABOUT OUR PRODUCTS:

Project - AMC Theatre
Product - Blucher-Josam Trench Drain and Pipe and Fittings.

In regards to Blucher-Josam, we at Thermal Mechanical have installed Blucher-Josam trench drains and fittings on several occasions with much success. The Blucher-Josam product offers both ease of installation as well as a wide product offering. The operational features, approval codes and material specifications allow for a trouble free submittal process. We at Thermal Mechanical highly recommend the use of Blucher-Josam for all your stainless steel drainage needs.

Gary Carter
Thermal Mechanical

Project: Luxor Hotel & Casino
Product: Blucher-Josam Pipe and Fittings

The Blucher-Josam line of stainless steel waste pipe has been the answer to our dreams. We installed approximately 300 feet of pipe above one of our brand new bars and the guys expressed to me the ease of installation and how they did not break their back lifting this pipe 20 feet into the ceiling. I would recommend this pipe to not only maintenance crews but i would strongly consider this material to be used in new construction.

BLÜCHER-JOSAM

STAINLESS STEEL DRAINAGE SOLUTIONS

About Blücher-Josam

Josam Company and Blucher Metalvare joined forces to offer the most comprehensive line of stainless steel drainage product available in the industry that is supported by a wealth of knowledge and expertise. Our product range comprises standard and customized floor drains, drainage pipes and drainage channels. All products are manufactured of stainless steel thus ensuring a high quality system that offers a complete, durable, economical and versatile drainage solution with ideal hygienic properties.

Dedicated to Service

Meeting the demands of our customers is part of our culture. Blucher-Josam prides itself in the know how and intense dedication of its customer service and engineering department. Our experts always provide custom solutions for each project and its specifications.

Material Properties

All Blucher-Josam drainage products are made entirely in stainless steel. This material is ideally suitable for high quality drainage systems:

- Corrosion resistant
- Fire resistant
- Resistant to impacts and thermal stress
- High material strength
- Light material weight
- Smooth surface
- Low maintenance cost
- Environmentally friendly

In Blucher-Josam drainage products these inherent qualities of stainless steel are enhanced by careful design, thus resulting in long product life expectancy, excellent hygienic properties, high flow capacities and ease of installation.

PRODUCTS

DRAINS

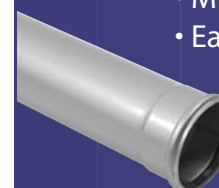

- Hygienic design
- Easy to install: Adjustable drains provide height, rotation and tilt adjustment.
- Stylish and functional grating
- Solutions for all load requirements
- Bathroom design drains -linear, triangular and square
- Removable trap available
- Wide variety of grates

CHANNELS

- Standard and custom design solutions available
- Built-in slope promotes self cleaning
- One piece or modular construction for easy installation
- Low maintenance
- Ideal where hygienic is important
- Wide variety of grates

PUSH-FIT PIPE AND FITTINGS

- Extensive range of pipes and fittings
- 2-10" nominal pipe size
- Complete system includes all pipes, fittings, hanging accessories and cutting tools
- High flow capacity
- Minimum hanging requirements
- Easy to install

PUSH-FIT TECHNOLOGY

- Provides tremendous cost savings for a material that was traditionally associated with welding
- Pipes are lightweight, easy to handle and install
- Pipes, fittings and drains can be installed in a fraction of the time of most traditional systems
- No tools are required to make a connection
 - Step 1 - Lubricate spigot
 - Step 2 - Turn lightly into socket

- Lip sealing jointing method is suitable for gravity or vacuum systems
- Type 304 & 316L Stainless Steel available for most items
- Three types of lip seal gaskets are available and suitable for a wide range of applications and temperatures

EPDM - Ethylene Propylene Diene Monomer
 NBR - Nitrile Rubber
 FPM - Flourine Rubber(Viton)
