EXHIBITOR 2019

Booth #6148

Don't ignore the importance of a proper drainage system in your facility!

For a variety of reasons a properly designed drainage system will increase the efficiency of your brewing facility. The Josam trench drain system is one of the only systems that is designed to withstand high temperatures that are typically used in a brewery.

Josam can help you choose a budget friendly, high quality trench drain system that's suitable for all your facility's drainage requirements.
