

Feeling the stress with installing polymer concrete trench drains?

Then consider the labor-saving **PRO-PLUS®** Trench Drain System.

PRO-PLUS® is a SMC/GRP drainage channel made from glass-fiber reinforced composite. It's an innovative material that is

- ✓ Lightweight
- ✓ Extremely Strong
- ✓ Shatterproof
- ✓ Easy to install
- ✓ Requires less manpower

When comparing **PRO-PLUS®** to polymer concrete its strength, weight, and thermal expansion is unmatched.

PRO-PLUS® Strength

1.5 times Stronger
35% greater Compressive Strength
80% greater Flexural Strength
78% greater Tensile Strength

PRO-PLUS® Weight

70% Lighter

PRO-PLUS® Thermal Expansion

1.7 times less

Install the **PRO-PLUS®** system and experience the benefits of its labor saving features.
