

Corrosive Floor Sink REPLACEMENT WITHOUT REMOVAL

The innovative JOSAM STAINLESS STEEL RETROFIT LINER allows facility owners to replace existing corroding floor sinks with a stainless steel product without removing the old product. The Josam Retrofit Liner simply inserts into most commercially available existing floor sinks or drains without having to disrupt the surrounding floor area. The Josam Replacement Without Removal method provides a completely new waterway and appearance with a superior stainless steel product less the costly labor bills commonly associated with such replacement.
