

OIL SEPARATORS

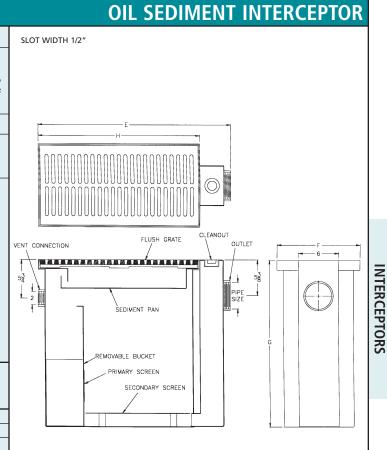

60810 SERIES

APPLICATION

For use in service stations, parking garages, car and truck washes and industrial plants where discharged water contains oil, sediment and other volatile liquids. Sediment and debris are collected in the sediment pan and removable bucket, which are accessible by removing the top grate. Oil and grease are trapped in the unit and may be skimmed off periodically.

SPECIFICATION

JOSAM 60810 Series steel Oil Sediment Interceptor with acid-resisting coating, threaded connection, flat bottom, visible double wall trap, removable sediment bucket, primary and secondary screens and medium-duty cast iron grate(s).
