PVC Product Features

Josam PVC Floor Drains, Floor Sinks, and Cleanouts contain the same design features as Josam Cast Iron specification drainage products. The lightweight material is easy to install.

Polyvinyl Chloride

is a rigid material that is chemically non-reactive. It has a broad range of application, from high-volume construction to simple electric wire insulation and coating. PVC possesses good weathering properties, is low-cost and corrosion resistant. It has good electrical insulation properties, dimension and stability at room temperature, a good combination of stiffness and impact strength, has flame resistant and fire preventative properties.

**9" MEDIUM-DUTY TOP**
Round non-metallic grate is chemical and temperature resistant with 24 square inches of free area to accept heavy flow. Optional half grate for indirect waste and PVC sediment bucket are also available.

**CLAMP COLLAR**
Clamp works in conjunction with drainage flange of body to anchor drain in concrete.

**TAPPING (Not shown)**
Auxiliary inlet tapping for trap seal primer optional.

**WEEPHOLES**
Weepholes around double drainage flange for seepage.

**WEJLOC®**
Exclusive compression "wedge lock" provides positive non-puncturing bond of waterproofing membrane to drain.

**2", 3", 4" bottom outlet for Schedule 40 solvent weld connection.**

30000-PVC SERIES

APPLICATION
For use with all adjustable strainers. Wide flange anchors drain body in concrete and works in conjunction with the clamp collar to redirect waste through the collar’s weepholes if seepage occurs around the strainer. The WEJLOC® clamp provides a non-puncturing positive bond of the waterproofing membrane to the drain body for applications where floors with standing water are to be sealed off from areas below. The collar is also invertible for extra vertical strainer adjustment to meet finished floor level.

SPECIFICATION
JOSAM 30000-PVC Series PVC Floor Drain, two-piece body with double drainage flange, 1/2” primer tap with plug, WEJLOC® invertible non-puncturing flashing collar with weepholes, threaded to receive all JOSAM adjustable strainers and solvent weld bottom outlet for Schedule 40 PVC Pipe.

Available Options
- MD PVC Clamp Collar with 3” Socket Connection
- 49 3/4” Primer Tap

OUTLET:
- S Solvent Weld Outlet for Schedule 40 PVC Pipe

30300-PVC SERIES

APPLICATION
For use with all adjustable strainers in ground-floor installations where clamp device is not required.

SPECIFICATION
JOSAM 30300-PVC Series PVC Body, threaded to receive all JOSAM adjustable strainers. Combination 3” x 4” solvent weld bottom outlet fits over 3” or inside 4” Schedule 40 PVC Pipe.
