

# Lite-Line Shallow Trench Drain System

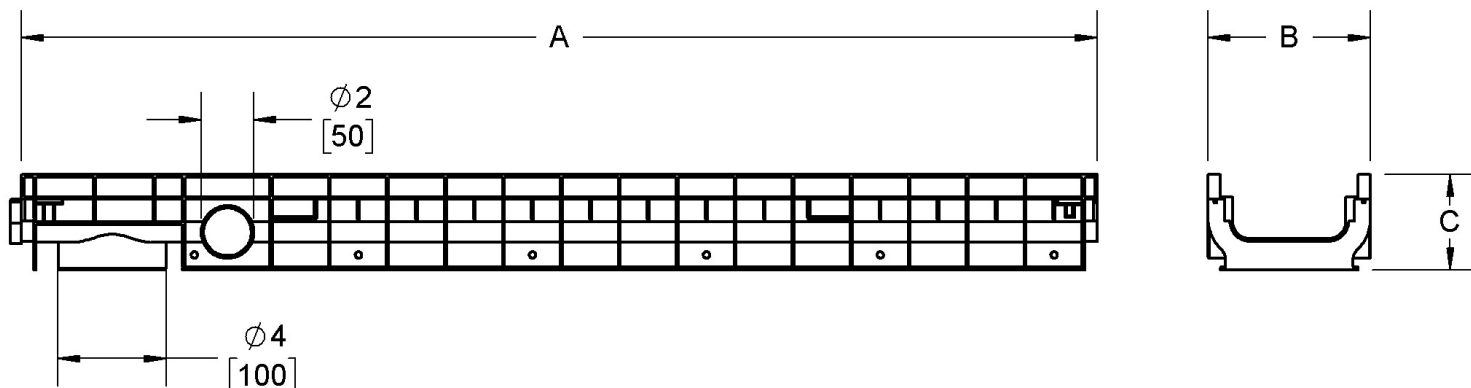

## INTRODUCING JOSAM'S LITE-LINE TRENCH DRAIN

Josam Company's Lite-Line Trench Drain System is a neutral shallow channel made of HDPE. Available options include a stainless steel or galvanized steel edge and four grates in load classes A and C. The Lite-Line trench drain offers drainage solutions for low water flow areas and standing surface water. It's ideal for applications such as parking garages, pedestrian areas, swimming pools, parking lots, and driveways.

The Lite-Line HDPE shallow trench drain is a lightweight channel that's strong and durable. It's a low cost option designed to maximize water flow and meet your drainage demands.

# Josam High-Density Polyethylene Lite-Line Trench Drain

Part Number	Description	(A) Length in.	(B) Width in.	(C) Height in.
TD-130	Shallow Channel (Neutral)	39 3/8	6	3 1/2

ACCESSORIES		GRATES	
	(ECS) End Cap Set (Two included: one for both ends)		(GABS) Material: ABS Load Class: A Style: Perforated Compliant: HP/ADA Length: 19.7"
	(LBK) Lock Bar Kit (Required every 19.7")		(GCI) Material: Cast Iron Load Class: C Style: Diagonal Slotted Compliant: ADA Length: 19.7"
	(110GSKT) Outlet Gasket 3.94/4.33 in		(GSS) Material: Stainless Steel Load Class: A Style: Slotted Compliant: ADA Length: 39.4"
	(SSE) Stainless Steel Edge Optional, Factory Installed		(GGALV) Material: Galvanized Steel Load Class: A Style: Slotted Compliant: ADA Length: 39.4"
	(GSE) Galvanized Steel Edge Optional, Factory Installed
